DISTRICT OBJECTIVES

- I. Oversee the natural resources in Southern Lincoln County so a healthy and productive natural resource land base is maintained by installing conservation practices and projects which:
 - Improve irrigation water management, irrigation water application efficiencies and encourage water development and storage.
 - Sustain and improve public, state, and private grazing lands.
 - Improve riparian and wetland habitat.
 - Maintain and improve water quality throughout the district.
 - Help seek a balance between wildlife concerns and agriculture interests.
 - Promote the social-economic environment in South Lincoln County that sustains agriculture and local natural resources.

- II. Take the necessary actions with district wide landowners, state and federal agencies to work together as effective stewards of the natural resources on their property by fostering local solutions to local natural resource related problems, and promote varied cost share incentive programs to install and promote and maintain conservation practices.
